

LOVE GREETINGS FROM ROMANIA!

Praying all of you be blessed while reading this letter, whenever you gave, over the years, just this year or just lately; may the Lord increase you in every good thing!

The harvest is gathered same the return of Lord's rewards back on our bosom. Yes, I know you are the blessed by our Lord Jesus Christ!

LIFE CENTER - SPECIAL END YEAR REPORT

My name is Eunice Luncanu, I was born in the little town of Roscani, HD county, I study Sociology and Psychology at West University of Timisoara. My family is composed of 13 children, I'm the second born in the family. My mom who has health issues tries hard to brave as a housekeeper while taking good special care for each one of the children. My father works as a professional driver for about \$400 a month income, rather this is a low income covering the family expenses. So, this forces him to pick up other part time jobs just to make ends met. We the children are missing him spending more time with us as it seems he is all the time on the run; and mother in her illness situation stays busy as well.

But while at a local youth church fellowship someone told a story about Timisoara Life Center that, for him, was like a lifeline buoy that saved his university degree and his life career today. Then privately I went to him and asked him if he can share the Life Center contact with me, he graciously did it for me. Here, I was confidently happy as I dreamed to study at Timisoara university city, though by now it was impossible to try it as I knew the student living expenses are above my head possibilities there.

But in one morning I dared to make a phone call and at the other end the director of Life Center answered my call. First I felt timid and feared rejection, but brother Constantin started to encourage me to speak up and tell my story to him, and I did.

Surely, I felt the director was touched by my story as I did tell it with tears in my eyes. He asked me to write an admission application right away and send it. I thanked God while writing it down and praying for the favor of God and men over me. After 3 weeks I got the acceptance letter while I asked to show up as soon as possible to the Life Center office, and I should take my luggage with me as well.

I truly was impressed with the Life Center love reception I received and impressed by the beautiful facility of my next home. All of it was above my best imagination to expect for, then I felt that I'm the most favored daughter of God on the earth. The delicious

meal we do eat here is so tasteful and fulfilling, the cook is a wonderful mommy lady who takes time to teach us the secrets of good cooking and treats us like her own children. I thank you all who supports us here, I know most of the support comes from America as brotherhood of Christ works as CCFR and LOI that are both posted on our sweet home. Without your precious love support as poor as my background I came from, I wouldn't have made it in life without you being on my side, you are our extended parents from afar off.

Love and pray for you, your little sister Eunice

My name is Laurentiu Florea, I was born in the village of Valeni, Gorj County, I'm the eighth one from the 13 children, 9 boys and four girls to my mom and dad's family. Here, I'm in the Law School faculty of Timisoara. My mom is a housekeeper taking care of all of us, her hands are filled up with lots of work and tasks; cooking and keeping us and the house clean. My father's job is driving a large truck and most of the time is away from home, we are all missing him a lot. Although he gets around a \$1000 a month, this income is just keeping us on survival floating to get bread on the table, and paying the utility bills. Buying clothing is something we must believe for, but God is always faithful to provide for it. We have a true saying here, "We bought it from Jesus store".

However, our parents imprinted in us the love for learning. The world they live in is difficult for all of us to succeed and meet their expectations. But we love to support the younger siblings to be able to make it too, so peaceful to see our parents happy for and with their children. My older two brothers graduated from the universities and found good jobs; one got married too; while my younger three brothers are in the faculty schools too. And all of them here and there lived at Life Center either were supported to start or to finish up their studies. Sure, this is a best-known family center in assisting the young boys and girls coming from a poverty family background, helping us to make life sweeter and be better off.

Just it happened as my older brother Joseph was supposed to leave the Center, but he still couldn't make it out as the Law school is very intensive and rather too difficult to hold a side job at the same time. But then Joseph found grace from the director Costel and from our founder John Dolinschi for an extension stay until he may leave the home Center safely and successfully. May the Lord bless our leadership here and our far-off supporters who are standing behind us!

My name is Naomi Giurma, born in the town of Targu-Jiu, I just graduated from the music faculty. My family is composed of nine siblings, my father had retired and my mom gets a handicap person pension, she has kidney disease receiving grade five dialysis.

It was a harsh start of my Timisoara university years, it was really hard to support myself by the expenses of the school to make a living here. It was next to impossible to expect my parents to be able to give me any schooling support, but through God's help and my hard work I survived to finish up the first year. However, by the second year I was ready to quit schooling as the needed money was not there to continue. Then I heard someone mention about the Life Center student support and I became interested to hear more about it. The second day the person provided me the address and a phone number. I called and I was set up to speak to the Center's director Mr. Prisacaru, and there with him was also John Dolinschi. When both of them analyzed my dire situation and found the way to get me a place in, finding a room and a vacant bed to be occupied, they welcomed me in the Life family. I was amazed not only of their reception but also of all my peer colleagues who received me as one of them showing me lots of love and friendship as they had ever known me. What a blessed family I got here, hardly I could imagine before reaching the spot, best facilities and plenty of delicious food cooked with passion and love. This year I had finished my music school faculty and found a wonderful ministry job at Elim Church of Timisoara, more than ever I had expected from this life. But we have a good Father in heaven and bunch of His own children here with us, so this keeps us contented and happy as we travel on this earth.

Thanks to all of you who support us to make an abundant happy life here!

I daily prayed for all of you who gives, for LOI and CCFR who mainly cares for our wellbeing here in Romania. May the Lord reward you here and forever!

My name is Samuel Ungur, I was born in Satu Mare, a city that corners Ukraine and Hungary, my family is composed of 12 children, 10 boys and two girls. My father works a machinist job and my mother is a house and family keeper, attending and paying attention to each one of her children. My father's meager salary of around \$400 a month, it was not enough to cover all the family needs, and here and there my dad was out to work extra jobs where he could get some extra support to pay the home expenses.

Despite our family situation, I loved books, born very hungry to learn new stuff, and in the year of 2019, I dared to go to Timisoara to attend the Designing Arts faculty of Timisoara. But doing this implied more money to produce to support myself, not any hope to expect it to come from my poor parents. But God honored my step of faith, while registering myself in the faculty. I learned from a faculty staff member about Life Center of Timisoara as some of their students were supported by this student aiding ministry. I visited here and found a lot of love to offer me a jumping help to follow my favored life study, they found a bed and a room for me to take me in. Then they told me that it was kept by the Father of heaven specially for me as He knew before I was born I'd end up right on this very spot. I truly was amazed of their talking about God as the Father of us. Otherwise, I don't think I could have made to graduation time getting a wonderful professional degree, unless God intervened for me, and His house here was called the Life Center who accepted me though I was a poor ignorant young

boy. But most importantly, here I came to know Jesus and His love for me, in a very personal way!

Appreciating the person or the persons who envisioned this ministry for the studious disadvantaged youngsters who are coming from a poverty background. Thanks for supporting us through this day!

Life Center graduation year of 2022, 16 of our Life Center students graduated from the following universities:

Alin Muntean - Dental faculty. Married this year as well. Andrea Galati - Pharmaceutical Medical faculty. Denisa Tughin - Economics faculty. Catalin Popescu - Telecommunications & Electronics faculty. Emima Toader - Medical - Pharmaceuticals faculty. Estera Andrei - Architecture faculty. Alexandra Oprita - Educational Science faculty. Emima Crista - Pedagogy faculty. Ioana Prichici - Medical School. Fatima Turcin - Business and Administration faculty. Olega Russ - Medical School. Naomi Catana - Computer Science, she married this year too. Naomi Giurma - Music Faculty. Roberta Gandore - The Letters Arts School. Samuel Ungur - Arts and Designing School. Ruth Catana - The computer science school.

The Poiana Mare Christian clinic added a new blessing last month with a thousand grace gift coming from sister Stela Buliga of Phoenix. As there is always needed more sensitive equipment the clinic still lacks. Besides, doctor Denisa hardly draws a monthly income from her hard work as the poor patients are drawn to her love and care. And the family has three small kids of their own to care for. Above all this, it is hard to express how much love and passion this sister has for these precious poor people is just hard to imagine unless someone knows the Love of Jesus that surpasses all human understanding.

Dr Denisa & family

ORSOVA CHURCH - PRAISE REPORT

The Danube bay River Church started a few years ago to enlarge their small building for their ever growing church as kids and youth are needing a larger place than a family home living room. Besides, by written or express verbal reminders, I was praying at all times while thinking of or just passing by. Now, my Lord, you see this need better than I do, then would you please help them to finish what they started years ago. I knew pastor Laiko and Diana Veres were under constant pressure, needing a large gathering space that they may call the fellowship church gathering place.

Now, I praise the Lord and give thanks to our good Father as He just spoke to our loving friend and businessman, as well a church planter the ministering pastor Joseph and Estrella Ruiz to give graciously back again, in finishing up a church building in Oltenia region that is under our bishop Milo Novacovici leadership watch.

And here ready to finish up this home church building for our Lord's house use!

Thanks everyone for your generous giving!

John & Viorica Dolinschi
