ROMANIA UNDER QUARANTINE

Safe and healthy blessed greetings in Jesus's eternal security name! His name is Love forevermore!

This Spring season is a time for prayer and fellowship with our Lord and getting closer to our own family and friends, ministering life to one another all the while raising disciples and making new leaders in Christ!

However, The Negative News is that the whole of Romania is in Quarantine. Public meetings and church gatherings are forbidden, walking on the streets without a certified emergency or going outside is not permitted. Most flights and ground transportations are frozen.

As you may figure out or already know that our Romania Spring itinerary and ministry in Romania, because of COVID-19, has been cancelled. Visiting ministers and Bible seminars were all postponed for a later date.

Praise the Lord for our wireless and internet connections which are still functioning well. In this area the ministerial network communication flourishes. This resource has been granted to us for these times. If the same thing happened in the early times of our ministry in Romania, the communicative knowledge would have been isolated, frozen and alone.

Discipleship and Training New Leaders is on the High Ground

Now, the best church meetings happen right in the bosom of the family. We have much more time to pray, teach and counsel ourselves in the Word. Inside homes, mothers are guiding their own kids to worship the Lord, training them in music and singing, fathers telling them Bible stories and life experiences leading them closer into the knowledge of the Lord. And each one of the family home priests, and leaders and pastors who are

However, CCFR was Blessed to Have a Left Over Emergency Fund. This fund is still available thanks to

among us are discipling and making new leaders behind the scenes, the ministry unto the Lord never is terminated while here on earth. It is running all the time until He comes back to take us up with Him!

Romania is under Emergency State Law.

In fact it is a military enforced emergency with soldiers and police out in the streets as all the cities are closed and people must stay indoors unless they have a government or institutional written permit to be outside on the street. Socially and physically speaking, it really looks bad, inwardly they work hard to keep their morals up. Many more are concerned about their family economical shortages as the State emergency aid offers just a little, providing only for emergency survival stuff. Their future looks foggy and gloomy.

Romania is hit by a quick flare up of the virus that exploded over the last several days. A lot of Romanian temporary workers returned from Italy and Spain, the countries where many of them were contaminated. Over night the hospitals were overwhelmed, medical and protection equipment just vanished. Even worse about three hundred and sixty doctors were contaminated by their own patients and then themselves restricted to stay on quarantine. And this has created a shortage of doctors and medical staff available in the hospitals. Some hospitals are without any doctors.

the man of God, Dale Clark who during the early part of this year sent a special and generous gift for the family emergent needs outreaches. Really, brother Dale is a saint who still lives on this planet earth, and his wife was the same but in the last part of last year left him alone and went to be with the Lord. We should pray for Dale, may the Lord's love and mercy counsel and comfort him. For more than half of century Dale and Velda made life together and were still nurturing true love since the time they were young. Dale is a real precious faithful brother in Christ!

What is left over from the fund is not enough to cover the many new needs, but it stands as a blessed **seed fund** for what should follow. May God's mercy and blessing help meet these needs.

The Best Timely Ministry for Today is to Provide Food for the Hungry. The current rules in Romania allow for three persons to walk and visit for ministry. This allows us to cover some urgent life survival needs for the closed up poor families which are in quarantine. Let's help our leaders and pastors in Romania be like worker bees to reach out to cover these urgent food and medical needs of the people. While with these families they pray for the soul of the lost people and in each home bring salvation as well as food items. We do not want any of these precious people to get sick and die without Christ.

Any donor who feels God's call to assign with a donation for these timely special urgent needs of Romania will bring **manna from heaven** for these stricken people both by covid-19 and the poverty, out of jobs and no regular income!

Pray Together Here for both America and Romania, we are all on the same problematic page! But here in The USA is a more generous blessing as the government here gives more generously than people get in Romania. Here are a lot more opportunities to get back on the job and have and get an income. What a blessed country we are living in, but let's not take it for granted!

And now, you have more time than ever to read my life and ministry autobiography book. Easily, you may check it out from Amazon. You can buy a hard copy or you can download the low price Kindle e.book. And if you ask us to send you a hard copy, I will do it, just let me know. The important thing is to read it.

This book will tell you the real emergent crisis times I lived under the communism rule while in Romania, when no American was there to help but God's angels showed up on our door with large bags filled with delicious foods! And a lot more encounters with God stories that will change the life of any reader.

Love you in Jesus Name!
