

REACHING ROMANIA

WORKING TOGETHER

SUMMER CAMPS
HAPPENING SOON

Christ Peace Greetings to every one of you followers of Jesus

as children of God are fully safe and secured in the Father's hand! Do not worry for your life and family, as Emanuel, our Lord is with us.

Please pray for CCFR workers and the volunteers team laboring for Romania stationed in America: Millynne Brown who still continues to manage the newsletter, editing, printing and mailing the hard copy. Craig Musgraves who owns MPrints of Mineola, TX, he is a God's favor for us as after Bob went home to our Lord, Craig decided to continue printing CCFR materials, Now, Christina, our 18 year daughter, felt attracted to pick up the accounting and the bank business, as well she assists me and care for the computer deeper secrets and while preparing presentations. Though Christina is still in her third year High School but getting busy to stand for the ministry of the Lord. At last, all of you knows me, I'm just the simple servant of the Lord, and running until finishing the race. Please, feel free to send special gifts for the general fund which covers miscellaneous expenses such as the newsletter, postage. But first of all, thank God for all of our ministry team, here in America and in Romania, the Lord added them all to us.

Announcement : The first two Books I had written, Christ Messenger to Romania and Rebuilding the Apostolic House have been revised and republished in English. The new edition is a "must read" – some changes were made and important information was added. Like in the biographic book you will get the whole Bible poem as I recited before the secret service judge, now we translated it in English. This Bible poetry was authored by our great, renown Christian Romanian verse maker of all times, Ioanid Costache. This man suffered severe persecution under the former communistic regime because of His Bible inspired writings. You may see how powerful these verses were as had broken a stone heart of unbelief, the rigid atheistic police officer's heart. Also, in both books now you'll have the Romanian pastor endorsements written after both books were translated in Romanian. The third book is translated in Romanian, presently is in the works of editing, endorsements, then printed and published in Romania. The Sons of the Father book, the English version will be revised and republished in America as well, you'll have it soon. Please, take a look on Amazon and order the books available or you may get these from me.

Praise Reports from the field,

Pastor Romulus and his team of regional pastors declare victory in Christ with our prayers and financial support the blessings poured on people and the region.

Marius is a young husband and father while working his utility machine burst into fire and his face was badly burnt. Immediately, God enabled us in his medical emergency, praying for him while riding with him to the hospital, and paid his medical emergency and surgery expense. Now, until he can be able to work again on the job, we covered part of his family needs.

Our sister Cornelia was needing a special eye lens for her bad sight. She struggled by hobbling to walk, hardly making it even to the church. But a specialist eye doctor found a lens working right for her. We paid part of the bill to make sure she gets it immediately. Now she feels happy to see clearly people faces and praises God while walking, specially, when comes to church. Pastor Relu had been also blessed to update his glasses lens, now he sees to run Christ race better up to the line end.

Through the recent support of CCFR two leaders were "recharged" and sent out running for Jesus to rescue others to find life in Christ. They had financial shortcomings which almost failed them. They were about to quit for a time while looking to find secular jobs trying to catch up with their family shortages. But here, the Lord answered miraculously as pastor Stelica witnessed to us. His prayer was answered. Both leaders said this was the sign of the Lord's mark on them as His voice spoke to us. Surely, the Lord of the harvest needed them to continue to rescue the poor and save the sinful souls around them. Now, while they have been strengthened, pray they will be dedicated to stand against further temptation to give up from the white harvest fields laid ahead for them to reap.

The church of Valea Lui Patru had grown steadily. Special baptisms services take place about every couple of weeks. There are also people being baptized right on the spot at each evangelism outreach outside the church building.

They have a central premise property projected to build up for a large building so many can come and worship. It is just a 15 minute walk to the church from any town's outskirts. There are small towns which are very dense, crowded with many people. They are ripe for the harvest.

The foundational digging just began but the provision to lay the foundation is not yet there. They are believing for the funds to finish. Now, anyone who may be quickened to support financially this church foundation are encouraged by me to do so, as I know this will be a vibrant evangelistic training center for the spiritually barren area of Oltenia.

Danube region, bishop Gigel Ignat has a very extensive ministry outreach area for about 50 miles perimeter. His very old car gave up, he drove it until it couldn't be driven anymore. Praise the Lord. He was able to purchase a good used car. The former owner in Germany took great care of it, and still looks good and truly reliable,. Mileage-wise it is about "half the normal life" of a car, but works fine. Our family personally helped him with about 70% on the purchasing price. We gave where it was most needed, to let the apostle run to reach out the leaders and cover the needs.

Baptisms & Ministry Oltenia region

Life Center testimony: Bianca Brehoi is a wonderful girl raised up as an orphan of both parents. About a year ago we accepted her in our life and job training program. She also has a sibling brother who lived in Timisoara working in construction. Her brother led a team of believers including the Life Center students, all these assisted him, to build a little home where she could live after she graduates the university and moves out from the Life Center home.

When the home was almost finished it caught fire from an electrical problem with something which had been plugged in. Much of the house burnt up. However, again our young people were there to help clean up and are now starting over again to help rebuild and remold it, and they will succeed.

However, the Lord works in us to share our lives with other unfortunate people, imparting His riches according to His loving grace. That's why we call this a Life and Job Training Program Center; we all need to learn to act out, get involved while blessing these needy

around us..

Life Center 2022 Projects and Needs: Air condoning is needed in guest rooms to both book our visiting ministry teams or housing the temporary transitional Ukrainian refugees. Unfortunately, the upper guest floor gets hotter over the summer season as Timisoara climate changed. Room cooling became a must to get in, not only for comfort but for the people safety reasons as well. And we are hoping in time to go down to the next floor, equipping the next rooms coming on the line.

Next, the Central building heating furnace is very old and expired. It is consuming extra gas and is unsafe for extended use. We can't permit to enter the winter without replacing this unit with a more efficient, adequate unit. Now, we must believe for a new durable furnace while saving our blessed money given by our donors.

Thirdly, the building must be equipped with modern fire safety units to legally let people live in. This is a requirement of city hall which must be done by the end of this year.

Most of the air conditioning units were provided already and the upper floor is on the works, but partly is still lacking the final provision for. Estimated expenses total approximately \$13,000.

The 2022 children camps are in the readiness of preparation to run for the month of July up to August.

Camps will be located in several regional towns. The following are on the books: the Padis Mountains, Valea lui Patru, Salcia, Bechet, Seaca de Padure, and maybe a couple more.

Thanks for your support of this lasting greatest Romania outreach I pioneered many years ago, and still going on! If you read Christ Messenger for Romania, the history of the camps is laid down.

& Ministry
Oltenia region*

At the end, reminding you that the Ukrainian crisis still didn't end, but many pastors as the Life Center does are still fully involved. The following leaders have a full hand of this: Costel Prisacaru, Timisoara; Constantin Gramada, Uriziceni, Bucharest area; Elijah Popa, Suceava, northern area; and Doru Pinzaru, Radauti, involved in Romania and Ukraine too, he is located right on the border of

Ukraine. Lots of the same work I wrote before is still reported, we do help and bless the foreign persecuted refugees, we are still there with them.

However, this letter was a cry out to bring the good news to you seeing the whole race picture, we are still running to win Romania for Christ Jesus!

Love never ends,

John & Viorica Dolinschi

Please, supporting readers of CCFR letter, change the old Van, TX address to: P.O.BOX 1006, Waddell, AZ 85355, unless you made the change already. The post office advises us to notify people to make address change.
