

NEWSLETTER OF DECEMBER 2021

Merry Christmas!

Blessed New Year to enjoy God's best free gifts given to you, to me and all of us! As good as this world looks, it can't give this love, joy and peace lived in the fulness of life. We should remember "with God all things are possible" while believing and trusting Him to the utmost of our being. This will be more than sufficient because at this point our lives will turn to walk according to His will for us! It is not an accident that Christmas is just about a week before the first day of the new year. May it serve as a reminder to continue the joyful birth of Christ in our hearts each day afterwards. This is like the power of Christ living in us that stands for all the days of our lives. Now just enjoy, and again I say rejoice in the Lord Jesus!

We are rather late with this December newsletter. Though I'm in America I was so much caught up with the ministry work inside Romania, and the leaders that I was distracted so wasn't thinking what may be next going here at home. Mostly I just picked up on the emergencies, like appointments, setting ministry scheduling and the few family urgencies where I was needed to get involved. But we wanted you to hear from us that we are fine and in good health, just starting to move forward speedily. In this season we need you to stand behind us perhaps more than the rest of the year; keeping us in prayer and your loving support.

I hope you got my latest book: "The Sons of the Father" Disciplining the next Generation of Apostolic Leaders. I mailed it to the ones who supported us on the second part of this year. Personally, I shipped it with much love and prayers for each one of you. But if somehow you didn't get it yet, please let me know to send it to you another one. Some were returned because postal address problems, so our mailing list may not have been as current as we thought.

Also lately I mailed you a post card, again I make it very personal, this is my love heart for you. Remember, personal discipleship is my first call and strength, and I do this just for that very reason which is strongly residing in me.

What is Going in CCFRomania Ministries

The ministries in Romania are very active in this time of Covid-19 the ministry to individuals and families had flourished. Our time here may be short while many people are "ripe, white and ready for the harvest". People are desperately looking for a better life niche to hang in more securely.

Thanks to our Lord for an end of year outreach fund that lately came about each year. It helps to rescue people and leaders out of their gravest need. This is generously offered by a true giver, brother Dale Clark. Our southern region leader, pastor Romulus already has benefitted from it to fix up his disabled car and pay the insurance. He continuously is running to and from to rescue the needy who are in trouble and bring the life of Jesus to many of them. Presently, he is still distributing shoes for the little

frozen feet. They reached to over 30 kids to where warm shoes were completely lacking. This year everything came with an inflation price tag, since food, clothing, and shoes really became expensive. Praise God for all of you who are ready to stand on this rescuing charity service to offer a lifeline belt to the poorest most lacking people.

Christmas Shoes Project started

The Eastern Romania, where our brother Constantin oversees a vast region, is also called the mission field of Romania. Our pastoral staff reports:

Neagi family lives in a miserable poverty but were blessed, surprised by an exuberant joyful spirit when they received the winter shoes for their four kids. They stated that so far they never received an expensive gift from anyone as they did now, and this miracle in their lives will be remembered forever. We replied that this is just a door opener to the real life. And their best is yet to come as the gift of salvation is waiting for them as the hand of our Father is reaching them with love.

Another family is a disabled father walking in a wheelchair who cares and raises 3 little kids and works to provide at least survival for them. Their mother just disappeared a couple of years ago when she was very distressed and depressed and left the family. This year the father didn't have any warm shoes for his children and it became impossible to walk a couple of miles away through cold and snow to reach their public school. Now they were the happiest, really blessed that this greatest miracle came right up to their door and received new warm shoes to make good through the winter season.

Here, a New project was Born out of this outreach called “The Ray of Hope for the Disabled Poor Families”

We prayed that the Lord may help us to provide first for about to 5 to 10 families in the grave need; \$150 a month for each family, starting to lift them out from where they are into a better life establishment. The local ministry already regularly supplies some food and medicine for the neediest people, but to cover their real daily needs a monthly financial support would be a life buoy for them to come out of their dire poverty.

Please if you feel to pray for this worthy project, do it heartily, while others including any of us will be raised to pledge a monthly financial support for a precious poor family from this eastern Urziceni region of Romania.

In January and February expect our news to you to have lots of vivid pictures and stories about more kids. We are reaching out to rescue them from this winter cold and warm their cold feet by the new shoes we are giving them.

Praise Report, on the new church plant of Piscu Vechi: The church started to build a small humble building to better house the growing church that from a couple soon went to a couple of dozens. Their largest home in the little town is too small to hold the overflow. The newly dedicated believers are poised to work hard over the winter. In the summer they will become busy with farming their lands as this is a rural town and farming is their main occupation, providing food for their families.

They all volunteer their time to work at the church, and each provides to help with funding the materials purchased. However, soon they will drain their savings, and some help from God’s people is needed. A roof is needed to safely protect the building and make it possible to further the work inside it. If you feel the call of God to sponsor some of it, it will be a real blessing for them while we are reaching this town for Jesus.

Have a Blessed December up to the end of the New Year,
John and Viorica Dolinschi
