

**A** most favorable and blessed New Year of 2021!

Let us rest in it like it is the year of Lord's day. Today the world's Babylon tower hastes toward globalism while we are preparing for Messiah's Kingdom to come. Let us make ourselves and others ready. The Lord speaks to all of us as He did in the past. We must work while it's day; night is coming, when no one can work; John 9:4. We must stay actively engaged as never before.

Praise the Lord for 2020, the Lord was with us through the turmoil of a struggling and sinful world. We're more than conquers in Christ Jesus.

**Here again is good news with the**

**coming new year.** This month you will receive Rebuilding the Apostolic House. This book is a premier gratitude gift for all this years donors. I just finished and rushed it to the publisher. It is about the way I minister and teach in Romania, Europe and America. This is an extension from Christ Messenger to Romania .

If by mistake you didn't receive the book, contact me by phone or email. Both addresses are at the end of each news letter. Also, if you didn't get my biography early this past year, then ask for it, I will include it. The Dolinschi books are also available on Amazon.

I am setting my plans for this early spring. I will be available for church meetings, and can assist you to plant the apostolic ministry. This March, we'll try our best to re-enter Romania, and once inside we're planning to minister for a longer time in the country. If you are quickened in the Spirit for rebuilding the church owned only by Christ. Let me know to schedule a time with you before leaving for Romania.

**Here is a Christmas thanksgiving from our dear Sister Dorina Vlad (Lidia).** She and her two boys entered their new built home just before Christmas. Thanks to Jesus caregivers both in America, Italy and Romania, the new home was possible because of our joint efforts. Thanks also to Pastor Romulus who was overseeing everything. The joint teamwork of other leaders and builders were a true blessing. This great project was covered and finished by CCFR. We invested about \$10.000, Two thousands coming from Italy and Romania. We are blessed when the brotherhood of Christ gets together. Again thanks to both sister Aline Mosteller who contributed about half of USA money, and the other by AIM4theWorld founded by the late James Colley and today led by brother Jeff Goldsberry.

**The Winter shoes project for the little children** was a great abundant blessing. This mercy project shoed lots of precious disadvantaged kids born and raised in a harsh environment but destined to succeed and make strong in life. Now, their cold feet are warmed carrying them

onto the path of life. Thanks to all who contributed to this project. You made a great difference to these families and brought health to their cold feet.

**Here is a praise report from Pastor Milo's extended leaders team.**

**Mihaita and Raul Netedu are two kids who are raised only by their father.** Their mother abandoned them and never looked back to survey their wellbeing. The father works any job he can find, while taking care of his children. The kids join with him on the jobs, helping and assisting him when they can. These jobs pay low wages, not enough to meet the family's needs. The new warmer winter shoes for the children produced a thanksgiving joy in their hearts and minds. The first snow fell as they put on their new shoes. Joyful celebration was heard while playing in the fresh white snow. What a joyful holiday was created because of a little money provided for them.

**The siblings Andrei and Daria Rogoz, were caught up in a happy surprise** when we dropped by with gorgeous new shoes that fitted perfectly. These two children's mother deserted them because of a violent father with a drinking problem. These kids are strong fighters to succeed in life with a great hope for a better life. Their example to their father is a good help to change his life. The church leaders were impressed with them since being saved at camp. These hero kids have taken the lead of the family guiding them into a better life. They are useful tools to the church, their friends and society. The Lord is still the same, yesterday, today and forever who changes radically all those who come and trust Him. In fact, their good example is an embarrassment to the kids living with loving Christian parents enjoying a good prosperous life. Andrew and Daria are dependable, diligent, and active at any given tasks. This shoe project is a great blessing for the poor kids from the south-west Wallachia.

**For Andrew and Daria the struggle of survival is ever present.** The lack of nourishing food is seen on their faces, but they are content with what their father is able to provide. These tender teenagers are also involved in home making as far as their schooling allows. On our visit we loaded two heavy parcels of food from our own gardens and some livestock products. We brought Christmas shoes, a new dress for the girl and pants for the boy. Daria, besides being diligent and smart, is a good cook. As a little girl she cooked meals for her father, brother, and sister. She is the mother for the two boys in the home.

Any American young man would be impressed by the virtues and diligence of this young lady. This family along with their pastor give their thanks to all who planted seeds of love to bring bountiful fruit in these orphaned kids. We pass the thanks of so many others whom we don't have the room to write about here.

*The joint teamwork  
of other leaders and  
builders were a true  
blessing*

**Christmas and New Year's season**, are times to spread hope and happiness, specially through the ministries of CCFR. In the south-west of Oltenia about 300 kids of all ages were blessed with presents of food, special snacks, shoes, clothing, and toys. This outreach makes Christmas the most colorful and fulfilling time of the year for the kids and for all the servants of the Lord involved in this project. These presents were carefully selected to fit each person. We gave the exact style and colors according to their liking, wants and needs. All this was accomplished by the labor of many volunteers, girls, boys, moms, dads, and widows involved, including your love of giving, and your prayers joined with ours.

In the past years, the presents were distribution in a special meeting. This year we visited each child, meeting them on their own street, gates, front and back yards as well in the homes. All the while we shared the word of God with their parents, relatives, and neighbors. We were asked why we spend ourselves with so much joy and love to help others? We told them the story of Jesus who is still walking these roads along with us, sending us to tell you that He loves you more than anything else in this world. What a personal material and spiritual blessing we were able to distribute around while this global pandemic paralyzed free movements. We had to wear a mask, with imposed restrictions not to hug other people but keep social distance. We went wherever the freedom struck the group.

**Meeting the needs of widows, the poor and the lonely elders**  
Pastor Milo & Nina Novacovici are reaching the barren world of Oltenia with the love of Christ. They continued to reach each home on their map with a faith blessing and a rescuer's hand. It is a great time to show that Jesus didn't forgot them but sent us to bless the elders and widows. On this outreach over 30 widows were blessed by our visits while filling their immediate needs. Most of these precious ladies received us with tears of joy. Many of them didn't receive a visit from their own sons and daughters as the country is restricting travel to Romania. What a blessing to have a brotherhood in Christ in a time of emergency reaching the lonely and the forsaken! Thanks for your gracious support this year end. Because of your generosity lots of little ones and needy people were truly blessed. Moreover, to make a gift complete our leaders took their own home goods and farming products to meet someone's needs. Truly, your liberty in given inspired others to give from their little income laying it at the feet of Jesus.

### Visiting the poor struggling and broken families of our church's region

This project started years ago. This year these needy people believed that we would find a way to reach and bless them. Though traveling restrictions were imposed, regardless the hard times we live, by God's grace we reached about 35 families, over 200 persons were blessed. We brought prayer, encouragement, comfort, blessed them with food, special meals, medical supplies and more. Now the touching stories are too many to write all the specifics here, but just imagine how much fulfilling joy all these love outreaches enlightened these homes. No one equals the family of God as this love is unconditionally given, no strings attached, while people are filled and fulfilled, saved, healed and changed forever! Thanks to you my friends from America, you contributed a lot and richly shared with these people!

I covered just one regional area of the ministry and the three other south-eastern ministries are lined up to share their own stories too.

I do hope in February's news to get at least a story from each of this area, and how many were blessed by this winter's offering.

**Home Project again**, patching, repairing, renovating and painting and furniture.

Single mother, **Sister Lilli with five small kids** who's father abandoned the family a few years ago we have been blessing. She raises them alone while working, providing cares, washing and cooking. This is a hard job for a little lady in a poor country with few resources available.

The home they live in is in a wretched condition. It is not healthy for the little kids, and needs immediate attention. Pastor Stelian and Relu started working on it, but ran short of money. To finish the project they need another \$1400. Any support is more than welcomed and received as a rescuing fund to save someone in great need!

With the great love of Jesus,  
*John & Viorica Dolinschi*
