## Newsletter of January 2022

Blessed prosperous New Year of 2022! Love of God, Joy and Peace is the foundation of happiness all of us are looking for, then all the other things needed and even wanted will be added into a fully lived life for God!

Always we should remind ourselves as God word speaks to us: Jesus was born to us as a humble baby; but His call for me and you is "the Wonderful Counselor, Might God, Everlasting Father, and Prince of Peace. And therein is an increase of His government and peace with no end." — Isaiah 9:6-7a. As the King of kings Jesus got all His power that is on our own use, we are strong because the Lord is our mighty Father overshadowing us within His everlasting peace.

Here pastor Constantin presents the poorest Tanase family, but many others are on the same plight as these two. And we helped as many as our possibilities could reach out.

Tanase family is composed of 4 small kids, and one of them has a sole-feet handicap, not using his legs. Their home is a waste decay not suitable for any people to live in. Because of the cold climate they use plywood over the window openings. There is no water or electricity inside or outside. They survive from a small government social welfare, and the father looks to find part time jobs in nearby villages. His small temporary wages covers a part of their expenses but they are left with a gaps they are striving with to fill to meet family needs.

The shoes were just great news for them.

They were more than surprised we reached out and found them in their humble abode. But sure the good news herald of Christ found them, not just being rescued, but salvation of their souls knocked at their door. Praise God, at this time we had been prepared, our evangelistic van and cars were filled with used clothes and food. In addition to shoes we covered some of their needs as well. What a surprised joy produced to this family is out of best expressive words!

Here pastor Constantin presents the problem of a poorest Cheche family:

Besides providing shoes for the daughter and child, the four in the family lives in a small room with two little beds. The windows are cracked and broken. They are using clothes and blankets to cover windows trying to keep the cold at the bay. They try to heat the home from a smaller unsafe stove using the brushwood they gather around the fields as the home lacks any electricity.

The parents, who are sick, go around the village begging to do small jobs for money so they can buy food. Sometimes they work for food instead of pay.

The little girl walks a long distance into the village public school but lacked any fitting warm shoes. She was wearing un-wrap thinner clothes not suited for winter.. So, we went back to our church and asked for donations of used clothes. We not only had the shoes for her but managed to cover her body in warm clothes. We found a warm head cover as the girl often had headaches caused by the colder climate.

They were so happy but amazed for the grace extended to them, as for their first time someone knocked at their door to bring them life supplies. We were also loaded with food supplies that really blessed them. They didn't know how to thank us. They felt they were only a destitute family on the outside of society. But we emphasized their value and importance as very precious souls to our Creator God and the love of His family for them.

### **A few shoes and goods-Testimonies chosen from bishop Milo's ministry region**

**Georigana, Catalin, Cristina and Alin** are the children of a faithful family of a newly planted church of Orsova. The family needs are endless, they are just trying to survive and to cover some of the most needed things for the kids and the home. The girls were continually thanking us with tears of joy, sharing they had the best dreams to get this year new winter shoes on their feet. They knew they would normally have to endure winter months of cold with feet in old, tiny shoes not made for the weather. But all the while praying and dreaming that our Father knows our desires and needs more than us, and here their good dreams were fulfilled by you.

**The little student boy Daniel from Bahna and his two little sisters** are struggling from day to day for their life needs. The father works for the village people getting daily jobs, content just to put a daily meal on his family table. Their mother doesn't work but takes good care for the kids and the father. She cooks good meals, cleaning and washing, managing the home to save any penny just to bless her family to multiply the food in her hands. The whole family has only one large room to live in, but they were thankful for any little thing they were getting. Daniel, the older boy, is now able to attend the primary school. He had an exuberant happiness to get the first new shoes on his own feet and confirmed to us that he feels like a little prince in those gorgeous warm shoes. He added that from now on the other school mates will respect him more as he just got decent clothing and new shoes on his feet. He felt very proud of it, thanking Jesus and Pastor Laiko, the local church leader, and the loving people from America who cares for his family from so far away.

**Ionut and Adriana are the last cadets in the home from** a family of five siblings. The parents are working daily jobs in their village of Garbovat, but the little town's dwellers are rich people to help more. Consequently, they get a low income for their work, and sometimes are just paid in home goods. This helps them to get the most needed food but not left enough to pay off other home expenses. Because of these shortages, Ionut and Adriana were not able to regularly attend the local school. What lacked mostly was to get the right shoes to last walking a mile from home to school, then back again.

The parents expressed faith in God, declaring that God heard their prayer and had seen their every need covered. Now for the Spring semester they will take their kids back to the school. Their children are in real need of schooling so they will be better off than their parents. Since the parents came from the same poverty backgrounds they strive to do better for their kids.

**Another poor family in Grabovat lost everything** they had when one night their house and everything else was burnt down to ashes. In the fateful night the parents were home from a few days when they had been working in a bigger town. While their two children, Bianca and Tudor, were profoundly sleeping after the mid of the night, their house caught fire ignited from a badly improvised home electricity. While sleeping, the girl Bianca felt a hand touching her by someone invisible. She awoke up and felt the other room was on fire while the heat and the smoke was creeping in their dorm. Luckily she had been quick enough to awoke up her brother Tudor and both jumped outside through the window. The poor parents were very happy their children were completely unharmed even though they lost everything else.. What a joy it was when we brought them shoes, food and clothes, It was a good time to pray together, thank the Lord that the children were rescued and the whole family saved by our Lord. Meeting Jesus and their new eternal home is more than any riches or even a home shelter we own temporarily. The fulness of joy and hope for the future can't be compared with anything else here.

**We Praise the Lord for the end year generosity givers.** Besides sharing Christmas shoes, this year we could reach more poor families, widows and deprived precious children with food, clothes, toys and more. And we'll extend this ministry of Christmas spirit for the next month reaching the poor people and wretched souls who does not know God. So far we really enjoyed bringing around packs of goods to the deprived low-lived. Many people got their Christmas enlightened and the New Year gladdened, enriched with the herald of God's good news that Jesus Christ is the Savior of each living person who comes to receive Him in their heart.

Some of our leaders were lacking sustenance substance as well. Our regional leader pastor Paraluta later confessed us that his family and ministry started to live in debt. He had borrowed money to pay off emergencies, used it for the winter firewood, paying home utilities and state taxes. But he, and others, at last received God's provisions to get out of the debts because our family in America was quickened to the family of God in Romania. Among some needs being met for them, a couple of cars were fixed so they can run for Jesus; required car insurances were paid off. They purchases of cereal sowing seeds for their gardens and fields were made to help get food for this coming year. Many of our leaders are so much caught up with the ministry and the needs of others. So, their own family suffers, and their needs are forgot behind. Like our popular saying in Romania, "the plumber man fixed all leaking pipes of his neighbors, but this poor plumber forgot to fix up his wife kitchen and his bathroom water is all leaking out." It was blessing to be able to help them.

Again, praying a blessed 2022 year for you! May Our Father watch over you within His borders of protection, safety and overall favor!

Thanks for your prayers and support,

John & Viorica Dolinschi

*Look at the warm feet now thanks to gifts of shoes!*
