

# CCFR Newsletter July 2023

Our outstanding life is based in the divinity of Christ applied to us as believers through His living Word. And here again a new momentum opportunity to believe on the depths of our hearts that our acting goodness in us is due to His divine mercy and personal appointment for us.

Thank you for hearing Him speak to you and holding up to your committed fellowship to include us in your heart, associating with us the ministry, the white fields of Romania! Thanks for being our best friends to read this letter, and thank you for supporting us straightforwardly to reap the kingdom's harvesting.

First, let's hear a couple of testimonies of those who were reached by your blessing to them:

**My name is Simion Mirea**, I'm the first born from a family of 8 siblings, in the teenage years my dream was to study at a university. When time came, I checked to enroll in some universities, but I was always blocked because the finances were not available to pay the required downpayment and proof that fees would be paid for

first university year. My parents couldn't produce this high funding as there were the other seven kids after me who demanded life and schooling expenses survival, and they were fully dependent on the family income. While I prayed, I started to believe that Jesus got the right way to get me in, then my desire didn't lose tracking. Then, I heard about the Life Center in Timisoara that helps career students who are in financial depression. I went all the way to Timisoara to ask what about me, after the interview I filed the admittance application. In the meantime they went on to investigate my case, contacting my parents, pastors or the local school director. The Lord was good, and the acceptance letter just came quickly and smoothly. Now, on July 16 I will attend the university graduation ceremony and receive my economics degree, and then free to

go for more in life. I decided to go at a Bible School and graduate from

there because God blessed me. I do have to give my very best back to Him as I want to serve this real God who is always with and for us. However, the life successive promotions came because Life Center is here, as many of our dire lives here were transitioned to a higher level of physical higher living both spiritually and professionally. Thanks to the Life Center and all those from America who are here to help us through the end of God's time.

**My name is Iulia Mihai**, I'm the fourth one born from a family of 12 siblings. My father about one year ago went to be with the Lord, now my mom is a single parent. My mom, besides being a great mom

for her kids, is also the "man of the house" caring for the home making and the income we have supporting her children laboring on her farming land.

Because we are in a mountainous region, away from large cities, there are no other optional jobs but agriculture. This helps the hard-working people with survival matters. However, on any school vacations we, the children, wherever we are far away or closer we come home to help our mother with the farming garden and working the farmland.

Before me, a couple of my older siblings had been housed at Life Center while chasing the career schools of Timisoara. Out of the 12 brothers and sisters only three of us had graduated from higher schooling levels, and the other two after us just started their college years. The rest after us are with

mom still attending the local prime schooling. Thanks God, for my oldest brother Theodor who found out about the Life Center student ministry assistance. Really said, the Life Center was our landing anchor following our ambitious, daring dreams. Otherwise most of us will be not at the level we have reached today, blessed, accomplished, and hopefully pressing on. Our focus is to be men and women of great value, and ready to help and bless others on reaching their destiny, spiritually, materially, and professionally.

May the Lord reward all of you abundantly, all who stood behind backing us up and still standing for others in the row walking this path of life!

**Life Center students are reaching regularly to a couple of prisons** in the fellowship of our western church ministries. The prison ministry is led by pastor Ioan Serban, the prison director over the westside region.

Recently, the women's prison ministry is getting high results; many of these wretched ladies and girls are coming to the Lord, confessing their sins and asking Him to be the Lord of their lives, hungry for more Bible teaching and counseling. The Lord is moving on each Kingdom Avenue to deliver and save, as the Lord sent us to break off the gates of hell and deliver the

prisoners, spiritually speaking, but in here the power of God doubles us.

Pastor Ioan Serban gets any regular support, living on what here and there the Lord provides for his family needs. He will be really encouraged and blessed if a couple hundred comes regularly, a surety for this committed family.

Summer children camps have started over the second part of June, here I bring you the far southern region by the Bulgarian border on the Danube River led by pastor Gigel Ignat. This year they camped in Ramnicu Valcea area, many of the camp children came from the Barca town region

where church plants started not long ago. Here the dwellers living in dire poverty were forgotten by the developed world, but God loves them, calling them to a blessed eternal life.

Briefly here just bringing a living testimony for your picking two little sisters who were among other precious needing souls, and reached by Christ Jesus.

Sonia 7, and Violeta 5 years old, raised only by their grandma Margareta who by God's grace were saved along others by His Son, Jesus Christ. Sonia and Violeta haven't seen their mother since they were babies. Sonia still hardly remembers the looks of her mother, but for a long time nobody has heard about her whereabouts. Just a few years ago she was still living in France. But the mom and grandma Margaret lives in a real poverty, but all her love is poured over her granddaughters. When lacking food first she feeds her little girls even though she may stay hungry, just make sure the little ones don't suffer too much. However, after received Christ she confessed a strong infilling with the love of God that she

barely explains how clear and stronger is comparing a mother's natural love.

However, the love and happiness of these little girls amazed everyone else, they are celebrating joy in everything they get. Their grandma, the peer's friends all they get big smiles for anyone just speaking to them. They are grateful for the little things they get, a cheap toy or a piece of cake is like getting everything they may need in life.

They are just a living miracle from God, who can transform the little abandoned ones in a gem of joyful love and happiness. Who can do it but only the Father of heaven!

Myself, I'm looking forward to visiting these amazed little girls and their brave grandma soon and sharing with the humble our first fruits and blessings, now enjoy!

Thanks for your own support for this priceless ministry on reaching the precious children for Christ Jesus, thanks for your thoughts, prayers, and generous giving!

Here is just the start of this ministry all through the month of July and August this ministry should be still running, that's why we still need your prayers.

Now, I feel to end it up here, though there are some more needs, not mentioned yet here; but your free generous gift is shared wherever would be most needed.

But if your gift had been assigned by you, this will go one hundred percent to that person or project.  
Live in happiness and enjoy the Lord Sabaoth,

*John & Viorica Dolinschi*
