CHURCH PLANTING

**Church planting
preparing
leaders for
ministry**

Our loving greetings and prayers from Romania!

Graceful passionate prayers made to our Lord Jesus and loving thoughts about you and others is the true spiritual communication bridge that keeps us His family as one unique body of Christ Jesus.

This is our main life purpose throughout the pilgrimage of our lives, we who are redeemed by the Lord Jesus! Certainly, the real faith filled believers, live a life of good works and actions of love. These real loving thoughts and prayers bears

out the good deeds done to families entrusted to us. We minister life to whoever we are being called to create a life change.

Thanks to all of you who are bringing the spiritual Spring of Life to Romania, we witness the visible difference done here through the body of Christ, our brothers and sisters in America! By the Lord Jesus' love, you permanently touched the people of Romania, and the souls are changed forever!

Momentarily here, myself, Pastor Romulus, Gigel, Milo, Costel and other leaders and churches are looking to thank you for the blessings poured over this new evangelical virgin land of the neediest region of Wallachia!

Praise Reports!

Constatin Dumitru's large family of 10 kids was provided a washing machine.

This hard working mother so far washed clothes manually. However, when an unfortunate accident came upon the father, he had lost the capacity to be the sole family provider as it used to be. As hard times went by they got in debt just to provide clothes and food for the family.

Valea lui Patru church reached out to help them with their most urgent needs. They took the unsafe, broken home and repaired and renovated it, including assisting them with groceries. They also provided fire wood for heating and cooking, as in this unwooded region it is a big challenge to meet the need.

This family is committed to faithful serve others, showing up first at the church services, ready to go on missions outreach to help others, and ready to fill up whatever the people's needs may be.

So, it is our passionate desire to help them out when we see their gravest, deepest needs not being fulfilled. Even they themselves might not observe the struggle they are in, and they don't usually ask for help, but Jesus said help them out, Their requests are coming to Me, not you.

Thanks for recently helping single mother Dorina Vlad and her three precious disabled kids for the \$1000 received to buy building materials. Today we're in the process of building up their new home before the colder fall season sets in. Your hard work money and our commitment to giving made the whole difference to this wonderful loving mother. The shabby old home was truly unsafe for living. The clay and the materials used like asbestos, were health hazardous. The inside clay walls the rats made their home in. It is hard to explain and understand that humans could make their dwelling there.

The husband and the father left the family a long time ago and nobody known his whereabouts. But the Lord had drawn the faithful needy ones to Him, saved and rescued them out of this dire situation and gave them a new family to love and care.

Thanks for helping build the home for Mitica and Liliana from Calafat.

This need was covered by a couple of donors. Their home is being fully completed but just lacking the furnishing. From now on they will fill up the gaps on their own and with local assistance from the brethren! Thanks for given a life fulfillment difference to a wonderful family! Now there are no water leaks, no bad stinky smells, not as

The many faces of ministry

Lives are changed and people are saved.

much coughing and sneezing as the outside cold or heat doesn't creep in. They are feeling as heaven came over them while still here!

Praise the Lord for the house roof provided for Calin and Eugenia Constantin!

This is a saintly old family, in their middle seventies. Several years ago they were reached by Jesus's love, saved and healed. Lady Eugenia was miraculously healed of TBC lung disease when receiving water baptism, just before salvation the doctors gave her only 6 months to live as her lungs were about to give out. When 2 years old she was diagnosed with TBC, family inherited, but later she married and had two children born with the same disease.

This precious couple experienced many hardships and poverty as in Romania the social disability aid is meaningless, mostly people are helped out by other people and when someone has a close family to help out that's a big blessing, otherwise they may be just barely surviving.

They badly needed a real roof over their heads as the old one was worn out, leaking all over. This project was an emergency as this year's season rain is very active, it seems rain comes down every day.

New church start and leadership gathering

Thanks to Evangel Temple, MO who first gave to Mitica and Liliana's home building project, but by the time the fund got here this project had been completed, and the fund was transferred to cover the Constantin's roof project.

PTL for His mercies that endures forever to reach to these people with their urgent burning needs!

Here is a second family home emergency of David and Elisabeta Badea who are over 80 years old. A few years ago the Lord touched and saved them out from the perishing world. They are dwelling in a very old home, and lately the roof collapsed as the heavy snow fell on it. Much water leaked into their rooms, but the new, local little church acted rapidly, covering it with nylon, lifted up the

roof planks, and stabilized it in place until a new roof could be laid.

We pray for the Lord to provide for this urgent need. We're positive that together we are going to win as again and again these projects were providentially covered. The family has only a little social farmer's pension as in the past their lives were spent working on the communistic state farms. This provides just enough money to survive.

\$1200 may be needed just to buy the materials as we'll do the job for free.

Water Well needed for Bebe and Carmen Anghel, family of 12 kids.

The little town of Cerveni lacks running pipe water, people need to build their own water source or may get it from someone else, however, lacking money is the biggest hinderance to digging your own well. It is becoming more and more expensive, and for most people it's too big an expense.

Finding good drinking water requires a deep well from a few to several dozen feet deep. All the while the Anghels took their water from their neighbors, however, more and more people fenced the wells in, and lock the gates. A couple of the wells they used are no longer available forcing a long walk just to get water. Angel

family has very little income. \$1700 will be needed for the well project. Surely this lower price comes with an extra bonus of church volunteer assistance to do some hard handy work.

Little Elisa Sclicea, main arm nerve severed

Elisa followed the doctor's treatment so far and the next step is to do a MRI at a specialist private clinic that will cost about \$300. Next is the nerve transplant surgery. The medical staff is positive about her full recovery and flexibility of her hand.

Now, my hands are still filled up with other urgent projects and needs to cover, but because this letter space is limited I do have to halt.

I do want a word of how all of these did happen. All the above projects and praise reports displayed here came into being because we have a local leader and a local church that came into existence.

Help
repairing
shattered
house for the
needy

This is the right season for the leadership training programs which is mostly accomplished through local and regional seminars, and a couple of national Bible conferences. This is where the leaders are bonded in one fellowship body to receive Life Spirit wisdom, and the apostolic vision to reach out around this dying world, to rescue and save the dying.

The evangelism and church planting is the second priority line of this mission, especially at this season of time. Now out from these activities we get all these people's needs presented here as the Gospel is being preached to the poor, receiving deliverance, freed and saved, and once in the family the people's needs are surfacing and cared through the love of Christ, and one by one covered. Thanks for being our friend, a partner and a fellow worker to herald the Gospel of the Kingdom of God with us in Romania!

Please be a blessing to our Bible seminars and the leadership training programs, pray with us, and financially support this outreach...!

Please pray for us as we'll be intensively traveling around Romania, and possibly minister in a couple other eastern countries.

1. First we need our Father's spiritual cover and anointing to minister the Word of God, may His perfect will be done in reaching out to each person and group of people without any hindrance or hesitation.
2. Safety, safety while traveling, being protected and provided through all the ministry end points, and shortcomings covered by the Lord on our walking, by car, by train, or by flight.
3. Please pray for Viorica my wife, and Christina our youngest daughter who are with me, that the Lord may instill confidence in her to love people and ministry.

Thanks for your love and friendship with us!
