

March 2016

I will praise the Lord at all times; His praise will always be on my lips!

Let's each day do it intentionally and purposefully and then watch the change on our perspective and purpose of life!

Praising and praying daily is the walk path of our lives and when these are activated by the word of God it becomes Kingdom life here while on the earth!

With this third letter of the year I felt led to make you aware of how to pray and praise God for us in Romania. This including all of you who are spiritually and financially part of the Romania team, though you may have never visited Romania.

Let's not worry about the world of good and bad news events as God's word says that we should first seek the Kingdom of God and His righteousness and all the other things will be added and come to pass as being heavenly scheduled!

First, I write to you a prayer list for the ministry outreach plans for this year, so it may serve as a reminder to you to reach us by prayer and giving. This way we'll be a team. First I trust on God but secondly I'm relying on special people, a team that I'm working with.

I will try to make it very simple so it may be easily remembered.

Training New Leaders and Pastors

First, CCFR is focused on training leaders in the ministry through Discipleship Bible School, short term Bible seminars, pastoral seminars and conferences. In order to reach out new regions, towns and villages for Christ, we're committed to raise new leaders in the ministry and be able to shepherd these churches. This ministry field need is so vast without ending space, and for this we need both the physical and the spiritual forces blended with the financial provision. Please pray for a miracle of God to see an army of God raised up spreading quickly the Kingdom of God on the earth.

Church Planting Ministry, is like building Kingdom's embassies that are under the church authority rule. This is our second ministry focus. If we evangelize and preach to a people but we don't open a heavenly embassy in their midst, then we cannot bring that territory under the King's authority.

There are still several hundred towns in Romania without any evangelical church in them. But now we're moving in the sprint spreading a fire. Please pray the fire will reach the last lost town, believing to grow and expand step by step all the way to the Black Sea, Turkey, Bulgaria and unto the Serbian borders, and then beyond!

Reaching the Youth and the Children is a strategy for equipping an army of young soldiers, that will establish the future security of a conquered country.

Our yearly youth and children camps over two decades made a great visible difference you can touch today. We need to continue with these youth-children outreaches. We work with them in the towns and the villages where we do a church plant. From this group we raise up worshippers for our God as well preachers, teachers, and Gospel singers and players.

The Orphan, the Widow, the Old and the Poor, the Homeless, the Prisoners are given special care and attention. When a needy person of this kind is found, a red flag is posted and after the need is met by a leader or a ministry then the red flag is replaced by a white flag. All year around we help and assist the poor, feed the hungry children and help the poor families and hold prison outreaches.

Life and Job Training and Assistance Program, is the professional training home we simply call the Life Center. It is the perfect example of what is being explained above of a variety of youth and children outreach programs. At Life Center - each year we house about 50 young people, most of them are living with us for about two years but it may be less or more depending of each persons need. We recruit these young people right from the Gospel fields, mostly from the poverty regions of the South.

In order to qualify for the higher level educational program they need to prove they have so far done well in their past schooling. The second requirement is to be accepted in one of Timisoara's higher educational schools, like special professional schools, high schools, colleges and universities. At this time about ninety percent of the children living at the Life Center are college and university students and the rest are either in high school or professional training schools.

I hope by now you may understand more the works of this ministry, Life Center is more a harvesting ministry on the mission of church planting fields, rescuing and saving the broken but precious vessels from the fallout of an unfortunate society they are born in.

Please pray for CCFR but as well for Life Outreach International to be able on continuing supporting this timely work of the Life Center. Pray for the growth of these precious teenagers who in their future are making a big difference in the world they will be living in.

Thanks, thanks very much for teaming up with us on your prayers and support list!
Now, Let's Praise the Lord for all that was done and accomplished last year here in Romania!

For the couple hundred churches and ministry leaders who are being taught and took seminar classes and are being trained in the ministry, let us praise the Lord. Praise Him for the new planted churches, some of their pastors are still in Discipleship Bible Schools but the summery of the final product is a servant leader for the Kingdom of God.

Praise God for **planting a couple dozen churches**, and several other finished up buildings, and other which are still under the building process.

And don't forget to praise Him for the few hundred kids and youth who were blessed by multi-face ministries, like, summer camps, street and children's home outreach, shoe and clothing ministry as well feeding programs, Life Center outreach, Bible and profession educational special programs.

I was not able to cover here all the detailed and personal work that we were not able to name here but are not of less value. A year from today all of us will finish well, well done job! And enjoy the triumphal joy of the Lord!

Just Remember: Love never ends!

John & Viorica Dolinschi
