REACHING THE  
YOUTH OF THE SECU  
CHURCH

MEETING IN THE NEW  
CHURCH BUILDING

SING PRAISE TO THE  
LORD

Christ  
Commission For  
Romania

# GOOD NEWS

### Brothers and Sisters in the Lord,

Today is the day to go full into the Lord's harvesting! This may be our last chance to respond to the Lord's call. We must engage in the Kingdoms work for the harvesting of souls. Just go ahead and do something greater and better than ever before either here at your home, community, city or to our needy world which includes Romania. In God's Kingdom provision the extra mile we go is always needed. By His divine grace we can do more than ever. Thanks for going the extra mile for us in Romania.

**Christmas Shoe Project** is quickly approaching. This outreach was started many years ago, and through it we blessed thousands of kids!

In my heart I feel we should again be that fulfilling part of the miracle of warming the cold frozen feet of the precious poor kids. We need to free them to run outside and play in the white snow, and continue to attend their education at the public schools. Let's make it possible, over the winter, for them to be able to attend their new planted church in their town. Then let us bring them to our summer camps and after let's help continue their education in a college or University of Timisoara. Let us continue to support the Timisoara Life Center which hosts and helps and guides these young people into a full God centered life.

Yes we can make the difference! Let's start to pray and see what we can do toward this project.

**My food is to do the will of Him who sent me and to finish His work - John 4 : 34**

Here is just the right timing to finish what we started as a team. Together, we can complete the project just before the cold winter season. These churches were started about a year ago. We along with a few poor believers who are still babies and little children in the Lord, began the work. These small towns and villages are below the line of poverty in Romania. They are just too poor to be counted, but the Lord's compassion is present to save and rescue them from their plight.

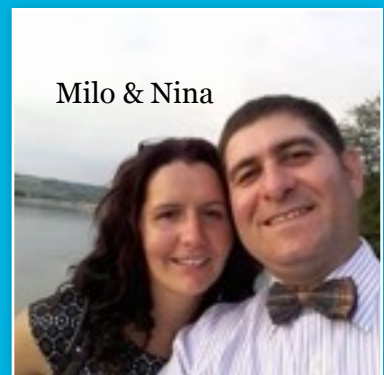

Here are the church plants buildings in the process to be finished:

**Secu Church still Needs**, water, bathrooms, and electrical power. Also the heating system, and inside finishing is needed.

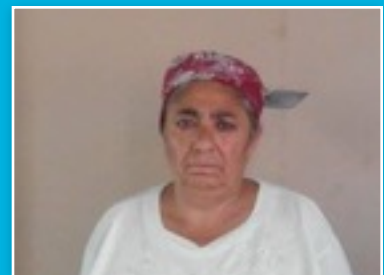

**Valea Lui Patru church**, needs flooring, the heating system and good reliable chairs, so people can use them safely.

**Life Center Timisoara Needs** a powerful water filter system that is very expensive and imported from Germany. Our water well is too alkali. The water has debris and other water parasites and bugs. Different health problems are too often confronting the students. The cost is about \$7000 and this fix will last forever. The system will be easy to maintain. The alternative is to

buy expensive water from the city. I just a couple of months the cost would be the same.

### **Praise Report of Cornita Church**

Yes, we have many praise reports from the churches which were built by God's love and favor. We are blessed with special people to stay behind them.

Here is an example from Cornita church. Pastor Relu just wrote, here we're in the midst of a great harvesting time, and this right after the church was completed. Our membership number doubled and many others who heard the testimony of the Gospel are still interested and are coming under the shelter of a dedicated building that is being used just for God's worship. Many here believe that a church can only come together us a dedicated building of worship. They would never attend a home church.

Water baptisms are taking place on a weekly basis. In many of these regions the people are demanding and begging for a church building, as they had been evangelized in the open air and in their own homes.

### **Monthly Support for the Church Planting Pastors**

Now it is not my custom to support a pastor of a church even though this may be a small and poor church.

However, I do have a great heart of compassion and favor for those who are stretching

themselves to reach out further taken town by town and village by village. This great compassion for the lost souls is stretching them too much. When the provision to go forth is drained out they may sell their own possessions for the Gospel as their cattle, sheep, donkeys and chicken just to make sure the good news is being preached and the needy soul are rescued and saved.

In September's newsletter I brought to your attention the great man of the Lord:

**Pastor Florin & Jeanina Scafaru.** They are still needing the \$200 or \$300 a month to continue their

church planting work, and pastor the sheep in these little towns.

**Pastor Milo & Nina Novacovici**, were our first missionaries sent from Timisoara to Walachia the southern region of Romania. They planted at least twenty churches which are functioning fully today! I have

noticed that for a long time they lack monthly support. They work hard to make ends meet, but this is a stressing situation that takes away from

ministry to just work toward surviving. To keep on reaching those poor needy people they need a suggested monthly support of about \$300 a month.

**The Great Church of Motru** pastored by **Milo Novacovici** is far behind with the government taxes for their church and ministry building. The weak economy made it impossible to pay this high property taxes as many people lost their jobs or are working at a less paying job just to survive. Right now taxes are used to control and harassed these independent ministries unless you're a large denomination. However, now a new annexation law is being considered in congress. This law would give tax exemption to all of the none profit ministries doing good for the country.

Please pray that this will be passed successfully by both congress and senate houses, so that this financial burden may be taken from these wonderful ministries, which are doing the greatest difference to rescue and save Romania for Christ.

The taxes due are \$5,000 if not paid the interest will balloon it up.

**Praise the Lord for the sisters Olga and Almajan.** Through your support both had a successful eye surgery, one to both eyes and one to one eye. The most important thing their eyes had being saved, they can see and work to support their own large families. And it is the most wonderful gift to see your kids and grandkids!

They are many like praise reports, and I hope to make room for them in our next good news letter!

Thanks for standing with us in prayer and support!

Love

John & Viorica Dolinschi
