GOOD NEWS

Amazingly! Love and the work of it stands forever.

Children's Outreach

Brings Jesus and joy to their lives.

Time passes quickly and immediately is behind us. We have arrived at the two digits month of the year, unbelievable just two months before the end of the year! It seems that I do not have enough time. I wish I had no time limits but eternity to do all that is in my heart and spirit, wishing with all of my mind to fulfill it all.

I'm busy with all kinds of things. It's hard to slow down to write this letter. There is always another pressing matter in front of me, but really love to write as I do it to my own family and friends.

September's highlights are regional Bible seminars and leadership programs. We continue to push on with church planting and evangelism. When the cold winter season is here the local church will be building up inside fellowship with one another and grow up in Christ.

We have a missionary team of two pastors with their wives, Pastor Kelly and Lenora Brake, and Pastor Sean and Sue McGroot, both from USA. It has been a great revival time for both the church and the leaders of the church. While with them we held three regional leadership Bible seminars covering South-east Romania and preached in special church services. During the daytime we held leadership training seminars and in the evening we had special church services.

This time it was a great time of reaching up in Christ, building the leaders in the Truth of God by the powerful Logos of God and by the prophetic anointing Rhema word spoken personally to each pastor and leader in the meeting. While I organized this all, guided and translated for these pastors, I felt that all of it was exactly as I would have touched myself. But it was doubled with power as we agreed in the unity of the Spirit to shoot at the target hitting the mark. It was exactly right what the pastors were needing at this time.

Pastor Milo, Pastor Relu and Pastor Victor are the three regional leaders who testified to me and others, this was their very special personal encounter with God, as the presence of God spoke directly in their own lives, family and ministries and at the same time spoke to the many other leaders in the meeting.

They were not alone. I heard from the many other pastors the same. In all three different seminars, at different places, I heard exactly the same confessional thing that God came to them in a sweet personal way, impacting and changing their lives and ministry to the Lord and others.

We traveled together, myself driving all the way from Timisoara to Bucharest where they flew out, leaving us to continue to plow, seed, tend and harvest. We were not alone as the Lord is on our side as they, and you too, are with us by the unity of prayer and faith sent by love all the way to us.

You may want to come and visit with us too, please take a look at your 2015/2016 calendar, and may the Lord send you here and a stretched hand to help us here in Romania.

Church Planting is the Pearl of my heart.

While with this great team and any time I may be around in a ministry area, I go to see the church plants. At times my schedule does not permit me to minister in that town or village, still I go just to see the location, the people, the house where the church started. For me this is a best time to pray for the whole town to know the Lord's will and ask the Lord to send the unsaved to the new embassy of heaven opened up as the church of God. Here I introduce to you a new church that has started to build its own building, in the town of Tintaru, Oltenia, though the church is only a couple of years old, they have 130 members, most of them are young and children. These poor people, half of them Gypsies are courageous people who envisioned their own building. One believer donated the land by the main road. They gathered together money to dig down and lay up the foundation. Some helped from here and there, a couple of times from the unexpected sources so the building went on, not halted for a long time but started again, and again. Now our prayer; let us continue to finish this building. Pray for one or more sponsors to participate in building the house of God for His little children. Children Ministry Outreach works around the year

surrounding towns where he and his team planted about ten churches.

With about \$500 we help these pastors for a full week to feed these kids a meal a day, teach them the Bible and gives them a playtime. Some of them will decide to stay in the Kingdom forever.

Pastor said this blessed 70 to 100 kids a day, and at the end we distributed to each school pulpit a couple of notebooks and pens.

I was in a couple of such meetings and what a blessing to be among these kids, whatever difficult problems you may be in have the joy of the Lord just overwhelms you!

Let's give to the special Romania fund where many of these small children and leaders outreaches are supported from according to each need.

Life Center a different kind of ministry

The American team started this summer with one special chapel service for the fall new year semester. Though it was a week before the official chapel of this new school year, we had about a third of the students present and more than half of our former graduates. It was great to hear about their personal and professional achievements, and what a spiritual and material blessing the Life Center was to each of them. Some became preachers, singers and church leaders, also they are doctors, assistant doctors, a variety of engineers, architects, teachers and professors or qualified personnel and workers.

Child Outreach with Pastor Reul

Pastor Relu Paraluta gives thanks to the Lord, then secondly to you and to me, for helping the little children reach their full destination in life. He gives thanks for the poor and needy children of the town of Valea Lui Patru, and children from the

The Life Center outreach ministry does not get any vacation, it reaches out to others in summer or winter, when students are in school or out of school, if our students are out, we rely on our staff and former graduates to do the work of the ministry. The Center is a Life job training program to help the orphan, the destitute and the poor child to achieve and make good in life, but Life Center is also a practical Bible school and missionary training center.

Many of our students marry, they turn to us to perform their marriage ceremonies, and to represent them as a parental home. Please pray for the Life Center newly enrolled students who just started a life with us.

Here I just picked up an application from the big enrollment pile. This is like so many other applications. Liliana Mihad applied and was received in our LC family, like most of them she is from the South part of Oltenia, the most poor region of Romania. Here is what she wrote for us: My family is struggling to live day by day, not having a constant income from my good father. He takes good care of my mom who has a chronic neurotically disease. She is mostly bed ridden or in the hospital room. My father takes care of my mom and my little five year old brother. The city hall sends us a small amount that pays a little of our monthly expenses, and mostly is used for my mom's medicine. Father, on occasion tries to work here and there for a few hours a day to make a little extra money in order that we may survive.

In school I made higher grades, achieving the honors. I love to study and learn new things and I pick up fast the information.

If you would accept me to Timisoara Life Center, besides going to college, I would look for a job to help my family who relied on my assistance in work and money.

Now this describes the general need in Romania and the struggle that comes with it, either we're on the church planting field or here in the big city of Timisoara our heart is crushed by the pain and compassion for these kind of people we work daily with.

Love never perish,

We love and thank the Lord for you,

John & Viorica Dolinschi
