Reports and stories

**BUILDING PROJECTS**  
BISHOP GIGELIGN

**OLTENIA CAMP**

## END OF SUMMER NEWS

**Bless the Lord at all times! His praises will always be on our lips! Both in good or bad times, we should not do differently but our hearts and lips bring praises unto our Lord.**

### **Camps Praise Report - Great Life stories**

Summer camps are a children and youth

heritage of CCF Romania, as we're running orphan-children and youth camps since 1993, it was just 2 years after the communism overthrown in Romania.

Children smaller camps were running in Cornita, Raznic, Valea lui Patru, Cernatesti, Salcia, Scaiesti, Motru, Paringu, and Piscu Vechi. These all are located in the spiritually barren and the poorest region of Romania. However, the older former camps started by CCFR are still strong and running all over the country. In Timisoara, Cluj, Suceava, and other camps around the country, they are being run with former leaders and pastors raised and affiliated with us. All of these came out from the one large Tabernacle meeting camp which for a decade went up to around 5000 people for a 7 days meeting.

As today I feel excited when to tell about Jesus's camps move in Romania as this was my early heart-bit to reach the new generations with the Gospel of the Lord Jesus Christ, and it truly made the difference as today. I'm still meeting with those generational leaders and pastors who are telling me the camps were their own Bible training school where they grew up mighty in the Lord, and that was the fact they are in the ministry today. What to say about the multiple hundreds that have being saved, delivered

**Pastor Romulus and family at Children's Camp**

and healed. It is just amazing of how much has been done in just a little more than a decade, when the Lord is present in it!

**Julia a 10 year old girl speaks out**, this was the most wonderful time of my life I was privileged to attend this children Cornita camp. For the first time I met Jesus my love, and made so many friends I never knew they existed so real to me. We learned how to sing great songs, and learned Bible subjects and memorized Bible verses. I was very much impressed inside me in the praise and worship times, when all sang together like one, and praised Jesus Christ, that really changed my life from inside out. Also we played together and learned to play new Christian games, it was just wonderful, all of my shyness and timidity went away and I became the active part of the camp. Thank you for inviting me, I felt I was an important special person to you, though I am no body but a little unknown child.

**Cosmin testimony, I'm 12 year.** Jesus was almost totally unknown to me. My family never spoke of Him, just when my dad was hungry and cursed something about God. But here I learned so much about the same God, and He really exists and He is so good,

so friendly that He is always around us, especially, in time of our need, when we suffer and that really caught me. I craved for someone powerful, strong and good who is always with me, to be my protector and to watch over me.

Here we learned to pray our Father who is in heaven, we prayed so many times this prayer

here, that I memorized it already, now I can pray at any time. Besides I learned other Bible verses, I like the Bible, sure I would love to have myself this great book to tell others about God's great story. I had enjoyed very much playing with other kids, I made good friends here, at first, I felt I'm alone as I was poor and shy but toward the camp end I felt so powerful and rich.

When I returned home my father asked me how it was with those fanatic Christians? Was I right to warn you that they may be just a dangerous sect? I told my parents how my life was changed, and how I'm feeling now, and Jesus is really alive and here with us. I told them so much, I think I was like a preacher. They said, we see you have

*Camps continue to give great returns in kids lives*

changed a lot, you never were a deep talker, you are like a passionate story teller. You may just become something. They were wondering if I would continue to attend the camps, and stay with this people, I told them, I'm staying with this people the same like I'm staying with you in the home, from now on they are my best friends. I want to talk more to my parents, I may need a Bible to read so I can learn new things from it.

**Georgiana 9 years old shares her story.** Last year I went to camp and I really wanted to return back, in fact I invited myself to come here, a month before. I met one of the camp leaders, and begged him to write my name for this summer camp, and he did. See I understand my parents are very poor. My four siblings and I hardly get enough food to eat, we don't have money for traveling, but only to go to our little neighborhood park. This camp, I took my little 6 old brother Andrei with me, we are good friends at home, and I wanted him to enjoy it too. He just told me how good he felt with the other kids and the group leader was like a mom to him, they are all so good and loving all of us. We both learn so much here. I feel like I'm really a real Christian for now I know more about our Lord. I think my brother feels the same. I would love all my brothers and sisters to be with us here, but a couple of them are really too small to come.

**Let's turn back to family needs, Dorina Vlad** is a young widow mom. She has to care for three retarded teenagers and a young boy. She is trying hard to teach and train them and they are making progress. But sister Dorina is fighting life alone caring for the family with just a little income. She is very much in need of financial assistance. Pastor Relu Paraluta does as much as he can as the local church people have very low incomes, and there are many more needs.

**The Biggest Need** is a better home for them as the old house is about to fall on them. It leaks all over. Pastor started to build a new little house for them, it's little but a healthy nice one, the size is just less than 200 feet but this will be a true blessing for this lady who is filled with love for her children.

If anyone will invest a few thousand dollars here, this will be a great mercy act, written in heaven and the favor of God here on the earth. It will be a blessing for Pastor Relu, for the people building for free, and me included also, and sure our brother Bob who prints and mails this monthly letter.

**Mitica and Liliana from Calafat town have 9 kids** spanning from 3 to 14 year old. They all live in a single living bedroom, cooking, washing and everything takes place in just one room house. For them to expand or build more is next to impossible, they hardly meet their day to day needs, though, today they are working harder than ever, but there is no real jobs for the father.

Pastor Gigel

This was because in the past Mitica was a heavy drinker, an alcoholic addict, and the best time to build a home slipped away.

But by God's great power just a year ago brother **Mitica was miraculously saved and fully delivered from his drinking addiction**, and today he is a loving caring husband and father. This came about more than a year ago, a church was planted in Calafat by our new young leader Alin who serves under bishop Gigel, and that's why I do stress today on making disciples and raising up new leaders. Someone like this, a wretched man is delivered and saved and his family blessed generations after him.

Mitica, was the first in the family to come to Christ, his wife resisted him, commenting that this new sect is not approved by her priest, but when she had seen her new made husband, witnessed a new person in him, she couldn't see or smell alcohol anymore, she just had to come back to him and to the church, and she gave her life to Jesus right on the first service.

Building and expanding is what our Christian life is meant for, what else but the Kingdom of God progressing right in our hands! A couple thousands of dollars will give the answer to this new family in Christ. Please come and build with us!

#### **School Needs and Supplies for the Kids.**

September is the month when the new school year starts in Romania. Many pastors asked me to pray as many families may not be able to go shopping for the supplies their kids need for the new school year. This came more and more to be a burden on our pastors shoulders as they are really caring for their own sheep.

In the past years we assisted some with the kid's school needs, may the Lord bless us this year do the same, an even with an abundance of provision. Let's get involved to start a new life for a kid who later may become the man and the women of great value, like those who are with us today at Timisoara Life Center.

**\$5000 still needed for the Medical Clinic in the little town of Poiana Mare.**

Dr. Denisa Feca cares for the sick people of Poiana Mare, Piscu Vechi and smaller villages around, and to let her freely practice her medical care she badly needs this building. In the meantime we helping as we can. Praise God for Pastor Doreen Mast from Tri Lakes Community Church of Indiana. They started this building project in a large way with a \$3000 gift. Thanks also to Lyle Goracke family who gave to this medical need.

The building must be paid in full before the contract is signed. Because of the use, the owners gave us the best price in the town. The contract must be paid in full by the deadline which is approaching fast. Let's not lose it, this is the best of the best deal, location and the most needy place for a medical clinic.

**Please pray for the seasonal fall leadership programs.** September through November we'll have two national Bible conferences, and many local and regional Bible seminars. This is the best time of the year to train and raise new leaders in Romania. Please those who are drawing in the heart to raise new leaders for the ripped harvest fields of Romania, please pray, please help with it, on this very end we have many needs.

Please pray for Bishop Richard Heard from Houston who in October is supposed to come and help us. Pray that the Houston flood sufferings will not hinder this great soul's Romania outreach! Pray for the victims of Houston flood and our dear believers who suffered loss.

Please pray for our next conference teacher, Dr. Ed Huie for the month of November. We need a great spiritual load of anointing on anyone reaching the door ways of Romania people!

Thanks for standing with God, His Kingdom is going to win!

Love,

*John & Viorica Dolinschi*
