Romania

**NEW MEDICAL
CLINIC
PROJECT FINISHED**

**CLINIC UP AND
RUNNING**

**BUILDING NEW HOME
LARGE FAMILY**

Praise the Lord, and thank the Lord for letting us be His field harvesters! Let's together go back to the field and gather the harvest of this year as it was a good year of seeding and growing crops for the following eternity to come! Thanks for assisting us in the Romania's field for this time of plowing, seeding, tilling and all the way to the harvest time. We'll be in Romania again and again until the end of the day when He will return to reward His laborers.

This summer was a busy time of work for Romania. While I was there in Romania the support was lowered on this side of the world. This created some hardship. We prayed that all the parts may come together as one unique piece in God's hand. Thanks the Lord you had been obedient to His providential calling voice, to come along and lift us back into the right balance.

Praise the Lord for the Christian Poiana Mare Medical Clinic full operation!

As you remember we presented and pushed this project in early Spring. The Lord provided the full provision miracle to make it to the finishing line. As the Lord commandment us to finish up what we

started, and sure you along with us in Romania, volunteering in building this ministry.

Now the poor people of all ages are lined up to receive medical checkups and treatment care. Many had neglected care because of the long distance and expense.

Like Mrs. Maria recalled, I caved in to the diseases I carry today. I spent a lot of time getting to the large Craiova city and the long distance took more than one traveling day. To see the doctor, there were long waiting lines, then usually a doctor visit came up with other follow up appointment, tests were required. I was spending too much money for the doctor's exams fees and overnight stays. This wonderful doctor we have now in our small town came too late for me but I'm feeling a lot better. Speaking for my dear children and family members this clinic is like a rescue boat for a drowning person.

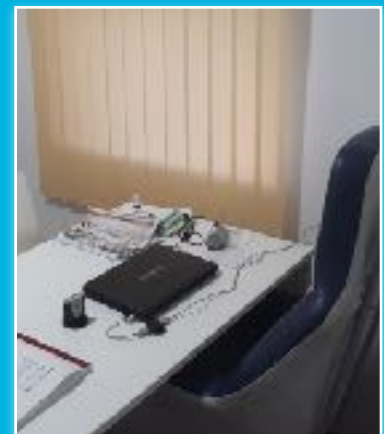

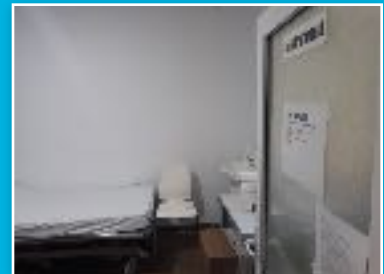

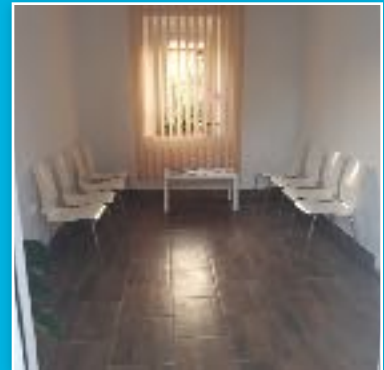

Thanks God for Claudiu Feca who being in our discipleship and leadership training programs submitted to the Lord's call to go out and plant churches around this spiritually barren and materially lacked area. And then came God's reward while ministering to the needs of the people he met this wonderful and beautiful girl, Denise a fresh graduate just out of the medical school and both obedient to the Lord decided to marry. It was pure love for one another but they also married within their unique hearts vision to rescue and save the people around them.

Praise the Lord for the summer camps. These camps brought many teenagers and precious children as one big family under God. They came together as one body, and all these lives were

steered closer to the Father's heart. Many of them fully committed their lives to the Lord's trusting hands. This is another way God's Kingdom has been expanded

Praise the Lord for the Christian Poiana Mare Medical Clinic full operation!

and in many ways enriched. The change not only came in the lives of the privileged ones who were able to attend but through extension many others will be reached and impacted by their lives. Here we do include their parents and their siblings and friends, and public schools where they are going to tell their stories.

This year we ran a few more small camps around the South. One was a set of small planted churches coming together with their little and young people. The main purpose was to enhance the moral and spiritual growth of these kids, most of who were babies in knowing the Lord, and also inviting other unchurch and unsaved children to join them.

Andrei, age ten attended for the first time one of the small camps operating in Oltenia region where evangelical Christianity is rather a rarity to be found. He confessed to us that his parents were reluctant to let him join with a couple of other families kids whose parents converted to a kind of Christian sectarian religion that they couldn't recall by name. They were afraid the boy might be converted to something that would be really wrong. However, it happened according to their fear, Andrei gave his life to Christ and really changed from the top of his head to the sole of his feet. Right away he became very jubilant and happy to tell of his vivid experience of how the Lord entered inside his heart and remained in his mind to be with him always. He went home and his parents were scared when they saw the great difference in his behavior, a positive undeniable one. Because of this his parents started to show an interest to attend a meeting.

Pastor Milo just sent me a short note of good news from the ongoing camp that is in full operation in the western Oltenia region. This camp has been running for twenty years. It

started by splitting our national large youth camp of few thousand attenders. For good reasons we split the camp into many regional camps, and this is an outstanding long lasting camp.

Brother Milo sent the news of what is happening. Fifteen kids accepted Christ already, nine were baptized in water, the Spirit of God is alive among us, the Lord is going for something greater! I do see here tears of repentance and joy, contrite of heart, jubilant joy of laughter and tears! What a great place to be where God's presence becomes visible!

Now, please stand with us to further the Gospel of the Lord Jesus Christ. Let us reach the hearts of those who have never heard the herald news of God's great news to save lives, heal the soul, the mind and the body. We need to reach the hopeless broken people who are struggling for another day of life, and pray they survive until the light of Christ breaks in their hearts.

The truth is, we are assigned to go out, we're commissioned to bring the hope of a changed life. Let's do our job, and do it quickly before the light of the day is gone.

Starting this September, our priority is church planting, discipleship schools and leadership training programs. We will be fully

involved with these. Please stand with us in prayer and support. This mostly is a virgin area ministry outreach, over to the towns and villages where the evangelical church is almost nonexistent. Our mission is to reach the hearts of the people who have never heard the good news of hope so they may be saved and live.

Regarding the Bible training programs most of these are for the young believers from the southern region, and they are standing on the emergency line to receive discipleship training programs.

Going a step further from the first level of discipleship school, is the leadership training programs. We truly need qualified and ready people who are to stand on the first line of ministry, not simply just leading a settled church but their agenda is pioneering the church plants and reach the unreached areas.

Now, the practical activation is to reach out to the needy people who are balanced on the edge of death. Let us visit the needy family's homes, hug them in love, parting a piece of bread from our own loaf, share with them the living water and bread of life. We need to pray for the sick, save a baby, a child or young boy or girl out from the poverty area, and pave the way to get

them out for a summer camp or to the Life Center, and a Timisoara university. This will change and break the cycle of poverty and bring people into the kingdom.

This ministry might be just gas money for the ministry vehicles, like the ministry vans sponsored by the Life Outreach International so our little poor kids get rides back and forth from the church. Many kids are not able to attend because of the long distances from home to the church. We remind ourselves that the church and the school is the only way they may grow step by step in the Lord, to become men and women of great value.

Thanks also for supporting the general fund as well as our personal support. Without this support we are not able to fly, drive and move around to raise new soldiers and prepare the army of God to go on the fight to rescue the fallen ones!

Pray for the national leadership conference that will take place between September 13 – 15, and our USA guest teachers, Pastor Dale Yerton, and Pastor Kelly Brake and their wives who will be with us.

Thanks for your prayers and support,

John & Viorica Dolinschi
